P. K. DEYO'S PROMPT and RELIABLE ADVERTISING AGENCY, No. 7 Appleton's Building, No. 348 BROADWAY, Refer to Messes, GREELEY & McELRATH.

THE AUBIN PORTABLE GAS WORKS are how admitted to be the best known, whether for private houses or for villages, because of their simplicity of construction and operation, their freedom from smell, and their unequaled economy, they do not require mechanical skill or constant attendance; they will work night and day it required, never clog the pipes, and cannot explode. They generate gas from any material containing it. These great advantages, in connection with the fact that with a working plan any experienced worker in metal can set up the works, make rights under our parents a safe and profitable investment. Parties in search of business will do well to investigate. If they do, they will buy. We refer to our works in operation on the steamer lease Newton, at the Delavan House, Albany, and in many other places. In a few weeks they will be in use for several villages now in negotiation. For further information, apply to N. AUBIN, No. 358 Broadway, New-York, or H. Q. HAWLEY & Co., Albany. Broadway, New-York, or H. Q. HAWLEY & Co., Albany.

OFFICE RECEIVER OF TAXES, No. 32 Chambers st. (new Court-House), NEW-YORK, June 28, 1856. NEW-YORK, June 28, 1856.)

TWO MILLION OF ACRES

FARMING LANDS.

IN TRACES OF FORTY ACRES AND UPWARD,

ON LONG CREDITS

LOW RATES OF INTEREST.

These Lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnifecent groves of oak and other timber. The Road extends from Chicago on the north-east to Gaire at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, &c., afford a substantial and growing home demand for farm produce.

shorded by it for transporting the products of the lands to markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, &c., aftor a substantial and growing home demand for farm produce.

The soil is a dark, rich mold, from one to five feet in depth, is gently rolling, and peculiarly hit of for grazing Cattle and Sheep or the cultivation of Wheat, Indian Corn, &c.

Economy in cultivating and great productiveness are the well-known characteristics of Illinois lands. Trees are not required to be cut down, stump symbole, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian Corn, planted on the newly-broken sod, usually repays the cost of plowing and fending.

Wheat sown on the newly-turned sod is sure to yield very large profits. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for Corn or Wheat, at from \$200 \$\$2.59 per acre. By judicious management the land may be plowed and fenced the first, and under a high state of cultivation the second year.

Corn, Grain, Cattle, &c., will be forwarded at reasonable rates to Chicago for the Eastern market and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high-priced land in the Eastern and Middle States is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bitumineus Ceal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1.30 to \$4 per tun. Wood can be had at the same rates per cord.

Those who think of settling in lowa or Minnesota, should bear in mind that lands there of any value, along the water-courses and for many miles inland, have been disposed of; that for those located in the interior there are no convenience for transporting the body of the lands of this Company at the prices

INTEREST WILL BE CHARGED AT ONLY THREE PER CENT ER

ment will become due at the end of the sixth year from the date of the contract.

INTEREST WILL BE CRARGED AT ONLY THREE FER CENT ER

As a security to the performance of the contract, the first two years' interest must be paid in advance, and it must be understood that at least one-tenth of the land purchased shall yearly be brought under cultivisation. Longer credits, at 6 per cent per cent from the credit price will be deducted for cash. The Company's construction bonds will be isselved as cash.

Ready-framed Farm Buildings, which can be set up in a few days, can be obtained from responsible persons.

They will be 12 feet by 20 feet, divided into one iving and three bedrooms, and will cost complete, set up on ground chosen any where slong the road, \$150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over their road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural teols, and outflet of provisions in any quantity at the lowest wholerale prices.

It is believed that the price, long credit, and low rate of interest charges for these lands, will enable a man with a few hundred dollars in cash and ordinary industry to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required, an experienced person will accompany applicants to give information and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Rairoad lands throughout the State—also hece out of fencing, price of cattle, expense of harvesting, thrashing, etc., by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English French or German, addressed to

VALUABLE FARM for SALE.—90 acres of superior FARM LAND, in as Iron Ore region, and well known containt Iron Ore—dive miles distant from Phenixville Iron Works, one of the largest manufactories of Railroad Iron in Pennsylvania.
